LEGISLATIVE COUNSEL'S DIGEST

AB 1444, as amended, Quackenbush. Adoption: records.

(1) Existing law generally prohibits state agencies from disclosing any personal information in a manner that would link the information disclosed to the individual to whom it pertains unless the disclosure of the information is as specified. With respect to the disclosure of personal information to an adopted person, that information is limited to general background information pertaining to the adopted person's natural parents and may not include or reveal the identity of the natural parents. However, existing law authorizes, in adoptions in which the relinquishment for or consent to adoption was signed on or after January 1, 1984, a person who has been adopted and who attains the age of 21 years to request that the State Department of Social Services or the licensed adoption agency that joined in the petition for his or her adoption disclose the name and address of his or her birth parent and also authorizes a birth parent of a person who has been adopted and who has attained the age of 21 years to

request the disclosure of the adopted name of the adoptee and his or her most current address. The birth parent or the adoptee must consent to the disclosure of this information.

This bill would revise existing law with respect to access to birth certificates as it applies to adoptees who have attained the age of 18 years or birth parents of adoptees who have attained the age of 18 years. More specifically, this bill would require the department or licensed adoption agency to furnish an uncertified copy of the original birth certificate upon request of State Department of Social Services to adopt a form to be signed by the birth parent at the time the relinquishment for or consent to the adoption is signed to advise the birth parent that an adoptee who has attained the age of 18 years and to furnish an uncertified copy of the amended birth certificate upon request of the birth parents of an adoptee who has attained the age of 18 years. However, if the original birth certificate or amended birth certificate is not available in the adoption file, the department would be required to provide an affidavit authorizing the adoptee or the birth parent to obtain an uncertified copy of the requested record from the State Registrar. The bill would require the department, and would permit licensed adoption agencies and the State Department of Health Services, to charge unspecified fees for this service. The bill would also make related changes. Because the bill would mandate new and increased duties on licensed county adoption agencies, a state/mandated local program may, upon request, obtain an uncertified copy of the original birth certificate. The department would also be required to execute a notarized affidavit certifying that birth parents seeking to obtain a short form copy of the adoptee's birth certificate did not have their parental rights terminated involuntarily. This bill would also specify that the department has access to files of pending adoptions and closed adoptions as specified.

(2) Existing law provides procedures for the amendment of birth records after adoption, including the issuance of a new birth certificate and an amended birth certificate and the transmittal and sealing of the original birth certificate. The records and information specified in these procedures

other than the newly issued birth certificate, are available only upon court order, as specified.

This bill would require the State Registrar to make (1) the new birth certificate available; to adoptees and adoptive parents at all times and, (2) a short form copy of the new birth certificate available, upon request, to birth parents of adoptees who have attained the age of 18 years, and to make (3) an uncertified copy of the original birth certificate available, upon request, to adoptees who have attained the age of 18 years. The bill would authorize the State Department of Health Services to charge fees for this service and would revise the information that the new birth certificate is to contain.

This bill would also specify a procedure for adding the name of a birth father to an original birth certificate that has been sealed, if the name of the birth father does not appear on the original birth certificate.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates which do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that this bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to those statutory procedures and, if the statewide cost does not exceed \$1,000,000, shall be made from the State Mandates Claims Fund. This bill would make related changes.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: yes no.

The people of the State of California do enact as follows:
